[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO JULY 25.

BY ATLANTIC CABLE.

General European Affairs.

MADRID, July 24.—Marshal Serrano having failed, Senor Zarrilla is now endeavoring to form a new ministry.

PARIS, July 24.—Rentes 55f 82c.

British Parliament.

LONDON, July 24.—In the House of Commons Dilke, member for Birmingham, wished to know if a reduction in the civil list was possible.

Gladstone replied that he considered the question arose from a misapprehension of the character of the list, which he said was a solemn compact made between sovereign people at the beginning of each reign, and economical advantages which resulted were to be credited to the Crown and not to the country. It would be well for Parliament to maintain this view of the civil list, as it would contribute to encourage the Queen's servants to fulfill their duties.

Intentions of the Pope.

ROME, July 24.—Reiterated reports that the departure of the Pope from Rome is now at hand are still denied.

WASHINGTON CITY.

The Cuban Difficulty.

WASHINGTON, July 24.—Official dispatches from Admiral Rodgers and Minister Lee, confirm telegraphic accounts heretofore published in regard to the first day's fight in the Cuban. A private letter, dated June 3d, says that when the surveying party commenced operations, they were met by Government officers, who informed them that there would be no objection to their work, but when they went further up the river, they were fired upon, the officers having acted treacherously, and as decoys. Their motives are represented as somewhat resembling our Indians. Tides are strong and heavy, and the current through the head of the river is fearful.

The total loss by the explosion of the Washington arsenal is $82,000.

Additional News from Washington.

WASHINGTON, July 24.—The report of the Department of Agriculture, just published, shows that the potato crop will be full average. Hay crop is short. Apples, about three-fourths of a good yield.

C. H. Christy of Athens, Georgia, was examined to-day by the Ku Klux committee, and he testified in substance that he knew of no Ku Klux organization in his district or portion of the State. He said no more crime was committed than before the war in his section of the State. He admitted there had been some violation of law by disguised persons for the purpose of punishing men and women for living in adultery and fornication, and for theft, and stated it was the general opinion in the community that people took the law into their own hands because so many criminals had been pardoned.

EASTERN STATES.

New York News.

NEW YORK, July 24.—Mace and Coburn have signed articles to fight Nonpareil Lith within one hundred miles of New Orleans for five thousand dollars.

At the coroner's inquest to-day upon persons killed in the riot, after the examination of several witnesses, all of whom testified that the mob fired on the military first, though some of them stated that only one shot was fired, the Coroner said he had tried to obtain all evidence which would throw light upon the subject before them, but there was nothing more than what had already been testified to, and he was ready to postpone inquiry if the jury thought necessary. The jury saw no necessity to postpone investigation, and returned at 2 o'clock and gave the following in five minutes:

We find that these parties came to their death on the 12th inst. by gun-shot wounds at the hands of parties to us unknown. The jury having signed verdicts in forty-two cases, were discharged.

More about the Coroner's Inquest.

NEW YORK, July 23.—This morning Coroner Young commenced an inquest on the bodies of those shot during the riot. The inquest took place in the Eighth District Court room. Assistant District Attorney Sullivan was present. The following jurors were chosen: John A. Dugan, Marshall Lefferts, J. B. Demarest, William A. Princh, Henry Comstock, Algernon Noebel and John Dunne. A number of witnesses testified that shots were first fired from the crowd before the military fired. Stephen J. Meaney appeared as counsel for relatives of some of the dead, but Coroner Young decided to conduct the case without the aid of counsel, and said he would do so in his own way.

Organization Against the Tammany Thieves.

NEW YORK, July 23.—The *Tribune* to-morrow will have the following:

A movement is on foot among a large number of capitalists who propose to resist the further collection of municipal taxes until an official showing of the city's finances is compelled. This movement of the capitalists has not yet taken shape, but from all such there are expressions of readiness, and not seldom of impatience. Members of the Produce Exchange are canvassing the subject of reform in the city government earnestly.

WEST INDIES.

ST. THOMAS, July 17.—A submarine cable between St. Lucia and St. Vincent has been laid. Small pox ravages Puerto Plata.

SOUTH AMERICA.

VENEZUELA, July 8.—The country is quiet except Barcelona, where there has been hard fighting.

Guzman has returned to Carracas and is looking about for reinforcements.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, July 25.—Passed west from Ogden, Mrs. B. G. Whitehouse and 3 children, and Dr. G. P. Masoling.

Renewed Disturbances in Amador County.

SAN FRANCISCO, July 25.—At a late hour last evening it was rumored on the streets that the leaguers at Amador had inaugurated a reign of terror and commenced murdering all parties obnoxious to them, which created intense excitement among the military and others in San Francisco. Notices were immediately issued for the National Guard to hold themselves in readiness to march at a moment's warning, and a large force reported for duty at their respective armories. It is not permitted to state the extent of preparations made, but they are adequate for any contingency which may arise. Troops generally are anxious to turn out and meet the murderers.

Latest dispatches report that E. E. Hatch, bookkeeper for the Amador mine, was murdered by McMenomy, a prominent leaguer, who was in turn shot and killed, or mortally wounded, by Hatch. The Amador Camp army force is being added by leaguers; the telegraph office also, and it is supposed the wires are cut. Masked leaguers are searching for various parties to murder them, and a reign of terror is prevailing.

New Water Project.

SACRAMENTO, July 24.—The California Water Company of San Francisco, with a capital stock of ten millions, organized to acquire the rights of rivers and lakes, and to dam up the same for such purposes as may be desirable, was filed to-day.

ARRANGEMENT OF FLOWERS IN A BOUQUET.—In grouping flowers, complementary colors as far as possible should be placed side by side, blue with orange, yellow with violet-red, and rose with green leaves. On the contrary, we should avoid combining pink with scarlet or crimson, orange with orange-yellow, yellow with greenish yellow, blue with violet or violet-blue, red with orange, or pink with violet. If these are to be inserted in the same nosegay, white should be interposed between them, as it prevents colors from acting injuriously upon each other, while it heightens their tone.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

BY ATLANTIC CABLE.

French Affairs.

PARIS, July 25.—It is again rumored that Favre intends to resign.

Moderate Republicans in the Assembly are negotiating for a union with the radical left.

Spanish Affairs.

LONDON, July 25.—Dispatches from Madrid, in relation to the recent ministerial crisis, are somewhat confused. It now appears that members of the Cabinet, formed by Serrano have taken the oath of office. The Minister of War acts as the Minister of State, *ad interim*. Many Spanish officials have tendered their resignations. Sittings of the Cortes will commence on Monday next.

The *Standard* of to-day publishes the details of a series of earthquakes which recently occurred at the Phillipine Islands. More than two hundred persons were swallowed up by the earthquake, every one of them being almost instantly killed. Sixty bodies of the dead will be recovered. The rest of the inhabitants have left the island, which has been utterly depopulated.

The Pope Going to Corsica.

NEW YORK, July 25.—A special dispatch from London the 24th, says the Pope may leave Rome any day. Preparations are making for his reception at Chateau Corte, Corsica. Mr. Vallery, owner of the Chateau, has had an understanding with Antonelli, and is to place it at the disposal of the Pope.

A movement is going on in France to guarantee the Pope temporal sovereignty over Corsica. The Pope wishes to publish a syllabus in regard to the occupation of Rome by the Italian Government, and declaring that measures withholding from him all temporal powers are void. Measures have been taken already in Rome to prepare for the choice of the next Pope. It is proposed to choose one who may be moderate in his ideas and not unfriendly to Italy, and by this means effect a compromise with the Italian Government. Cardinal Carnillo de Pietro is mentioned. The disposition made by the French Chamber of the petitions in regard to the temporal power of the Pope is equivalent to laying them on the table.

Other European News.

DUBLIN, July 24.—A great meeting was held on Saturday on Lloyd's Hill (Meath) to protest against the eviction of a large number of farmers. Violence is threatened if necessary to resist the eviction.

VERSAILLES, July 24.—Thiers refused to accept the proffered resignation of Favre as Minister of Foreign Affairs.

The assembly of the courts martial is positively announced for July 31st.

WASHINGTON CITY.

Financial Affairs.

WASHINGTON, July 25.—About $850,000 will be required to pay quarterly interest on the funded loan, due August 1st. This money will not be sent direct to money centres, as heretofore. The change made in sending interest to bondholders meets with favor in the West. That section of country has always complained that New York has had an excess of the floating capital, owing to Government disbursements being made there, and, therefore, rates of exchange were fixed at that point in New York, while in the Western States it rates at higher rates.

The liberal system of granting furloughs, which has heretofore prevailed in the Treasury Department, particularly among heads of Bureaus and other high officers, has been curtailed. The Secretary has issued a general order stating that no more than thirty days absence in the Department will be allowed in any fiscal year, under any circumstances whatever, and that no appeal from this decision will be considered.

A Washington special says Secretary Boutwell yesterday, in transmitting to Commissioner Pleasanton the opinion of the Solicitor of the Treasury in relation to the collection of taxes on coupons, said: "I accept the Solicitor's conclusions, and I have to request that you will communicate the decision to officers of internal revenue for their guidance, calling their special attention to the fact that it applies only to interest on bonds paid previous to the decision of May 31, 1871, and not to dividends upon stock.

Railroad Matters.

BOSTON, July 25.—At a meeting held in this city yesterday, in which the Central Branch of the Union Pacific, Chicago, Burlington and Quincy, Hannibal and St. Joseph, Chicago and Southwestern, and Atchison, Topeka and Santa Fe roads were represented, it was agreed to construct a bridge across the Missouri river at Atchison, work to be commenced immediately. The Central Branch Company have made arrangements to extend their road up the river to connect with the Union Pacific at the one hundredth meridian.

CANADA.

A Filibustering Project.

MONTREAL, July 25.—There is considerable excitement over the discovery of a plot to organize in this city a filibustering expedition against Cuba. The committee in Montreal do not wish for any more men for this district, but it is said that the branches in London, Toronto and Hamilton are recruiting vigorously. A lot of Snider ammunition has been purchased in Montreal.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, July 25.—Advices have been received of the election of delegates from several of the mining counties to a Mining Convention to be held at Sacramento on the 31st inst. If troops are ordered from San Francisco, the Nationals and City Guard, who were first sent to Amador, will be among those sent. This is deemed advisable as they know the ground and would be more effective than fresh men, who would require considerable time for preparation to take the field. Few, if any, substitutes will be sent. The Nationals have received payment at the rate of four dollars per day and will receive one dollar more soon. The City Guard will receive their pay to-night for the first campaign.

The steamer *Wm. Taber*, opposition to San Diego, has hauled off for the present for repairs.

The latest private dispatches from Amador are of such a character that mine owners will probably request Governor Haight in writing, to call out the troops again. Governor White, ready to act if required, desires to avoid the expense and trouble of ordering out troops if the civil authorities can maintain peace without military aid.

Both Hatch and McMenomy are alive but not expected to recover.

The following is the passenger list of the steamer *Prince Alfred*, hence for Victoria and Puget Sound to-day: Mrs M Gollis, Miss Hastings, Mrs Kerker, Miss Turner, Miss Paton, D C Rothschild, J Kertz, J M Whitworth, William Blum, W Blumenthal, George Hartung, N C Talbot and family, H L Bunker, Edw J Thair, Capt Nott, W M Colter, G F Crocker, & Lowe, Ed Farrell, Gorsalo Rogers, Mrs Rogers, Miss Rogers, Wm Downing, A Davison, Henry Shaw, E Robinson, Mr. Good, N B Storrs, W Clendenin, J McLennar, H L Williams, and 35 in the steerage.

SAN FRANCISCO, July 25.—No orders for the transportation of troops from San Francisco to Amador county a second time, have yet been issued, and unless the civil authorities are wholly unable or unwilling to maintain the peace, notice will be given; though the troops are in readiness to march whenever called on. No notice has been given the Governor that the military will be called for, and it is the wish of the mine owners, also, to avoid the expense of sending the troops there again, if possible.

The First Baptist church on Washington street, has been sold to the New York Home Missionary Society for $25,000, to be used as a Chinese Mission. Only $1,000 of the amount comes from New York, the other $23,000 being contributed by residents of California. Sent from Oregon.

Arrived—Steamer *Orizaba*, San Diego.

It is expected the assessment of five dollars per share, levied by the Hidden Treasure, will be rescinded, this month's working yielding large surplus over expenses.

SAN FRANCISCO, July 25.—Extreme barbarousness is charged upon the management of the Insane Asylum at Stockton. The number of escapes finding their way back here are constantly increasing, not being accounted for on any other hypothesis. This evening, one Brown, arrested for burglary on Geo. Colton's house and sent to the Asylum instead of San Quentin, was found walking around the streets and locked up. He is, and has been sane all the time and says he got away without any trouble.

The Democratic Committees, outside of County Committee, are in session this evening endeavoring to effect a new compromise, the first one not having held good. Nothing is known of their action beyond the choice of Dr. Shorb for Chairman. The County Committee appear inclined to ignore those outside Committees entirely, and go on independent of them.

INTERIOR CALIFORNIA DISPATCHES.

The Troubles in Amador County.

JACKSON, July 25—1 P. M.—Last Sunday night, Hatch, book-keeper for the Amador mine, was attacked by Hughey McMenomy and Wm. Denen, members of the Miner's League. On Monday, in company with J. W. Burnett, he came to Jackson and got out a warrant for the two League men. They were brought before Justice Turner this place. Denen pleaded guilty to a charge of assault and battery. McMenomy, who was charged with assault to commit murder, had his case postponed till to-day, and was permitted to go on his own recognizance. He returned to Sutter, when he met Burnett and high words passed between them. Burnett slapped McMenomy's face. McMenomy drew a pistol and Burnett drew one also. Both commenced firing. Hatch came out of the office during the shooting with a pistol in his hand, and was shot in the right breast, but no one knows by whom. McMenomy has two wounds in the groin, supposed to be mortal. Hatch is still alive. Burnett is unhurt, and is now in this place under the protection of the Sheriff, for fear of an attempt on the part of the Leaguers to get hold of him. At 12 o'clock all was quiet. There is little hope for either of the wounded men.

SAN ANDREAS, July 25.—The Republican Convention to-day nominated the following ticket: Senator, Barlow Dier; Assembly, J. L. Brown; A. M. Harris, Thos. King; Sheriff, R. Paul; County Clerk, J. A. Foster; Treasurer, C. B. Hopkins.

Dispatch from Stockton.

STOCKTON, July 24.—Mrs. Catherine Brannan, aged 68 years, while walking on the Central Pacific railroad track, about two miles north of this city, last night at 11 o'clock, was run over and killed by the Western bound freight train. She was mangled in a frightful manner. Her head was crushed so as to be unrecognizable. The left arm was cut off close to the shoulder, and the right leg and arm broken. It appears she was mentally deranged for some time, and lately free to days afternoon, and wandered about until the time of the accident.

Eli E. Tefft has been appointed a Director in the State Insane Asylum vice Montgomery, time expired.

NEVADA, Cal., July 25.—The Republican County Convention to-day nominated the following ticket: Senate, Chas. Kent; Assembly, Henry Everett, Rob't Bell, J. M. Days, S. Barker; Sheriff, Joseph Ferris; County Clerk, T. C. Blaisdell, Reader; Treasurer, W. Watling; Treasurer, Gelsmith; District Attorney, M. Dean; Assessor, J. T. Morgan; Road Commissioner, Wm. Dows; County Surveyor, J. G. Mather; Public Administrator, Jno. M. Bush; Coroner, Dr. J. R. Kibbe.

An enthusiastic ratification is now going on.

R. B. Gantry publishes a standing offer to bet $1,000 on the election of Newton Booth and $200 on each Republican county candidate nominated above.

The Daily Oregonian.

WEDNESDAY MORNING, JULY 26, 1871.

Indian Commonwealths.

It has been proposed to collect together all the Indians of Oregon and the adjacent Territories and establish them in a commonwealth somewhere east of the Cascade mountains, setting apart for their occupation and use an extent of country sufficient for their support; to induce them gradually to make laws and regulations for their own government, and teach them to adopt as rapidly as possible the customs and industries of civilization. The problem as to whether these Indians are so far capable of improvement as to make this plan finally successful, seems not to be sufficiently settled; but the Indians in other parts of the continent are making progress toward a realization of the idea of a commonwealth, wherein tribal distinctions are abolished, laws established, industries built up and a departure effected from the evil and indolent ways of Indian life.

A short time ago a general council was held in the Indian Territory, at which representatives were present from all the tribes of the southwest. They propose to adopt a Constitution which will destroy the individuality of the tribes and unite them under one central government. General Sherman was present and encouraged them to take this course. Most of their difficulties have sprung from rivalries and animosities between the tribes, and General Sherman attempted to impress upon them that nothing would sooner or more effectually remove inter-tribal jealousies and animosities than the consolidation of the tribes in one nationality under one Executive.

It is believed that this plan will be accepted by all the Indians in that quarter, and several tribes who have never before accepted any sort of government have expressed their readiness to come in under it.

The territory which it is proposed there to set apart for the use of the Indians is said to embrace within its limits "one of the richest and most fertile regions in the United States." It exceeds by about thirty thousand square miles the area of the State of New York, which will give to every man in the territory a farm of nearly a thousand acres. If the lands are as rich as they are described to be, all the nations of the Indians should be able to maintain themselves upon them independently of any Government aid, and this, we believe, they should be compelled to do. There is no reason why a red man, any more than a white man, should be permitted to eat unless he works. The liberal offer protects the Government from the charge of hostility to the Indians, and should be by them willingly and promptly accepted. In no other way can they prevent their race from becoming extinct. Whether or not the "Indian problem" can be solved in this way is uncertain; but there is no other way. If it succeeds with the so-called southwestern tribes it might be made to succeed ultimately with those on this coast. The Indian must be taught to support himself, or extinction is the inevitable fate of his race. To learn to work is the first lesson in civilization.

The Fruits of Democracy.

Dispatches to-day say an energetic movement is to be started in New York to rout the scoundrels of Tammany who have plundered and disgraced the city. It is a suggestive fact that all the leading members of the gang have within the last ten years become immensely wealthy. Tweed, who in 1861 was a bankrupt chair-maker, is reported now to be worth at least twenty-five millions. Other members of the ring correspondingly. No wonder the financial affairs of the city has been made since December, 1868. The Council of Political Reform, composed of many of the wealthy men of the city, have been investigating the subject, and have recently issued an address, the leading points of which are thus presented by the New York *Evening Post*:

The Tammany Ring, under the rule of Comptroller Connolly and Wm. M. Tweed, raised by taxation in two years from the citizens of New York over sixty-three millions. This they spent and borrowed more than thirty-nine millions besides.

The report then gives a set of tables, which show that the total debt of the city and county of New York was, on December 31, 1868, deducting sinking fund: $10,992,048.

That on December 31, 1869, it was, again deducting the sinking fund, $34,407,047.

That on December 31, 1870, the debt had increased to the prodigious sum of $73,086,228.

And that four months later, on April 30, 1871, it had grown to $84,541,156.

That is to say, *in twenty-eight months the debt of this city was increased, secretly, over fifty millions, and in four months over ten millions.*

The report adds:

The Democratic office holders now officially admit the funded and bonded debt to be over eighty four millions; in addition to this is the floating debt.

They admit officially that in the last twenty-eight months they have added over fifty millions (50,134,138 68) to the city and county funded and bonded debt, beside the floating debt.

They admit officially that in the last four months they have added nearly eleven millions (10,854,659 81) to the city and county funded and bonded debt, and this does not include the floating debt.

The following instructive comparison is then presented. Look on this picture and then on this, and see which party gives greater evidence of economy and reform:

Let us see how the fiscal management of the city compares with that of the nation.

The city rulers show no account for twenty-eight months.

The national rulers report in full and minutely on the first day of each month, for the preceding month; furnish the report to the press, from Maine to California, and mail a tabular statement to every one who asks for it.

The city rulers in the last two years more than doubled the city debt.

The national rulers in the same period reduced the debt of the nation eight per cent., and reduced taxation some twenty per cent.

Controller Connolly gives not a line of explanation of the $18,812,000 added to the city and county debt in two years, on claims adjusted by himself alone, and himself and the Mayor and President of the Board of Supervisors.

Public servants never refuse to obey the law and show their hands when they have honest hands to show.

The municipal extravagance, corruption and incapacity of the last twenty-eight months is unexampled in history.

No city or county can show its equal.

Until our city rulers produce their accounts and vouchers, and deliver to the public the regular quarterly reports of the auditors for the last twenty-eight months, showing *to whom, when and for what*, they paid the *four millions a month* spent by them in that period, tax-payers and the public creditors cannot avoid the belief that a large part of it was stolen, traitorously stolen.

This address gives some idea of the fruits of Tammany or Democratic rule in New York City. No wonder the people are associating for the purpose of driving the rascally gang from power. No wonder they declare their purpose to pay no more taxes till an official exhibit of expenditures for the last three years be made. This thieving gang has kept itself in power by pandering to the vilest elements in the city, and its submission to the rioters on the 12th was of a piece with its other infamies. Let it be remembered that this ring is the head of the Democratic party of the United States. By means of its power in New York that party hopes to triumph in the Presidential election, and rule the nation as it has ruled New York.

Injured Innocence.

Yesterday the telegraph reported that a society in New York whose members were among the rioters on the 12th, had passed resolutions denouncing the suppression of the mob and the maintenance of law and order in that city as the "foulest blot on the civilization of the nineteenth century." Something like this was reported in a former speech on the same subject to which the Sacramento *Union* does justice in the following remarks:

The "Hibernian" whose speech in New York before his society the telegraph reports furnishes about the most striking example of impudence given since the days when the Southern rebels sat upon the highway, and while "shying rocks" at Union men who were quietly passing, clamored loudly to be let alone. It was an innocent amusement so long as only one side engaged in it, but as soon as the Union men began to fire back, it was all wrong. So with this Irishman. He appears to think that nobody ought to have rights in the great city of New York but his Roman Catholic countrymen, and that in shooting and pelting the handful of Orangemen and the citizen militia with stones, the mob was in the exact line of its duty to God and the country. There was no violation of law in all this, he thinks, but when the Governor ordered the persecuted Protestants to be protected, he acted like a wretch and a tyrant, and all Irish Romanists are warned to taboo him; to seek revenge for their defeat; to watch for the hour of vengeance; in short, to organize in America societies of assassins in the name of old religious feuds, similar to those which once cursed France and Scotland, and which are the grievous curse of Ireland now. We hope there are not many such Hibernians in New York, but, if there are, and if they again attempt in any way, upon any pretext, to set the law at defiance, we shall be glad to see them even more roughly handled than was that insolent, miscreant mob on the 12th of July.

Still Another New Thing in Railways.

The narrow-gauge railway system, of which much has been written of late, is likely to have a formidable competitor in its race for popularity, in the plan successfully introduced in France by an engineer named Larmanjet. This plan, says the New York *Times*, contemplates railroads having a single rail, upon which the middle wheels of the locomotive and freight-wagons run, while their outer wheels move upon the common road-bed. This rail is made like those in use for street-car purposes, and known as the V rails, into which the wheel fits closely enough to be retained in position. The road-bed is made of ties, two and a half feet apart, and four feet long, upon the center of which the rail rests. Of course, that portion of the road upon which the outer wheels travel is well made, and as hard as practicable. The greater part of the weight is arranged to bear upon the rail itself, while the outside wheels are useful mainly in keeping the wagons evenly balanced. Several roads of this sort are already in operation in France, and engines weighing ten tons have been found capable of drawing a load of fifty tons up an incline of one foot in fifty, at the rate of six miles an hour. Smaller engines, of half this weight, will draw thirty-five tons, up a similar incline, at almost twice the speed named. Such roads are built, it is estimated, at $2,800 per mile, unless extra road ballasting is required, when $3,300 will cover their cost. By the adoption of such a system of roads, every farmer can adjust his wagons to run upon them, and, by tapping one at any convenient point with a road running from his own barn-door, can send his "truck," literally, to market in a comparatively independent and inexpensive manner, and without the delays and transfers now inevitable.

The *Herald* at last gives an editorial opinion of the New York riot. It takes the side of the rioters, of course. With servile submission to the law-breaking element, it is willing to see New York ruled by the mob, in the interest of the Democratic party. It censures Governor Hoffman for doing a duty which he was sworn to perform, and thinks that the subjugation of the rioters was an outrage and disgrace. The *Herald* has the satisfaction of enjoying these opinions with one other paper in all the United States, namely, the New York *World*, the infamous organ of the infamous Tammany gang, who shamefully strook their colors to the mob.

Archbishop McCloskey, in his address to his congregation in New York on the Sunday before the riot, referred to the intended parade as a menace to Catholics, and expressed the "hope that the authorities would see the wisdom of preventing it." Why Orangemen have not as good right to walk in procession through the streets of that or any city as Roman Catholics, the Bishop did not say.

The New York *Herald* of the 11th had its columns illustrated with such expressions as these, printed in heavy display letter: "Tammany does not meet the danger manfully."—"Tammany sneaks away from its duty."—"Tammany fears to face the music." The whole paper was full of taunts and denunciations of the Tammany gang for their submission to the mob.

The Sacramento *Union* does not credit the report that the Central Pacific Railroad Company have bought out the California Pacific, but thinks it much more likely that the transaction is just the reverse.

Gen. Froment is spending the summer months at Mount Desert, on the coast of Maine. He purchased a small island there, named "Little Porcupine," last year, and will build a cottage on it.

The Water Question.

HEXTER'S MILLS, July 25, 1871.

TO THE EDITOR OF THE OREGONIAN:

SIR: I see so much controversy in the Portland papers regarding the "Holly" system of supplying your city with water. There is one fact which will remain and your cannot explain it away. It will still be Wallamet river water which you will get. It will require a stratum of gravel and clay at least half a mile in thickness to purify it from the drainings of the barnyards and chemicals of the factories of the Wallamet valley, or by having a heavy stratum of charcoal and renewing it often, you may purify your water. But suppose you supply your city from my springs, having a fall of 198 feet, to your reservoir, say 120 feet, which will leave a superincumbent weight of water of 78 feet, or many tons of pressure, which, I believe, will send you the water at the rate of twelve miles an hour. The consequence would be that probably no thicker pipes than eight inches in diameter would be required to carry the water to Portland, and when once completed, there would be no occasion for any further delay for steam or fuel, and have pure spring water besides, which very few cities in the world have—another fact I would almost guarantee. The purchase of the springs, together with the cost of pipes and laying them across the Columbia and Wallamet rivers to your reservoir, would not aggregate $175,000.

My springs, as near as I can estimate, discharge thirty gallons of water per second, or more than two and a half million gallons in 24 hours, summer and winter alike.

Hoping you will insert the above in your paper, I remain, respectfully yours.

J. HEXTER.

THE TERRITORIES.

The Land Office at Walla Walla is in operation. The first day's business was 1,360 acres disposed of.

A fire at Walla Walla last week resulted in a loss of $1,200. Property belonged to Messrs. Frank, Rankin and Freeman.

Property holders at Walla Walla refuse to pay the special tax levied to provide a fire engine. Probably they want to be burnt out.

We have received a copy of the premium list of the Clarke county (W. T.) Agricultural and Mechanical Society. The fair is to be held at Vancouver on the 19th, 20th and 21st September. $100 premium is offered for the fastest nag.

From the Walla Walla *Union*: On Wednesday last a party of railroad surveyors were in town, and on the next day left for Lewiston, where they expect to commence their survey of the route for the North Pacific Railroad. We learn that it is their intention to survey up the Clearwater and try the Lolo Pass. They think they will be able to get the line established as far as Helena this season.

POLITICAL NOTES.

The colored citizens of Florida are to hold a convention in Jacksonville, on the 3d of August, to elect delegates to the Southern States Colored Convention to be held at Columbia, S. C., in October.

It has been stated on what is claimed to be good authority, that Tammany has determined to throw Hoffman overboard, in obedience to the demands of the Catholic Irish, who form its main strength in that city.

It is understood that ex-Governor Richard J. Oglesby is to be the Republican candidate for Congressman at large in Illinois, in place of General John A. Logan, now in the Senate. The special election is to be held on the 7th of November.

Of the "anti-subsidy" Democracy of California the Sacramento *Union* says: "As soon as they secured power they went to passing subsidy bills, and of these the Governor, without protest, signed a great number, in the aggregate covering several million dollars. We can name seventeen of such bills." Now the Governor claims to be the great anti subsidy champion!

PERSONAL NOTES.

Phœbe Cary, on the 20th inst., was at Newport, R. I., very ill. Physicians had no hope of her recovery.

Adam Brahl, who was a soldier in most of the Napoleonic campaigns, and who is one of the survivors of the battle of Borodino, the retreat from Moscow, and the awful passage of Berezina, celebrated his golden wedding in Milwaukee, Wisconsin, recently, and gave on the occasion a number of interesting reminiscences of his military career.

A Denver (Colorado) dispatch of the 20th gives this: A fiendish attempt at murder took place near Frankstown, about thirty miles south of Denver, on Sunday last. A Mrs. Gibson, invited Miles Maudlin, a wealthy ranchman living in the same neighborhood, into her house under the pretense of addressing a letter for her. When Maudlin was in the act of doing so, Mrs. Gibson shot him from behind with a revolver, the ball entering his neck between the shoulders, cutting the spinal cord and paralyzing the whole body. After the victim fell to the floor she attempted to shoot a second time, but the cap snapped without effect. She then ran about a mile up the road with the pistol in her hand, until she met some persons, whom she told that she had killed Maudlin, and she was by them taken to Frankstown and lodged in jail. Maudlin cannot recover. The excuse for the deed is the defamation of her character.

REMARKABLE CURE OF MRS. HOOVER

TUALATIN PLAINS, WASHINGTON Co., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could walk with difficulty go around. My shoulder pained me a great deal and a year's now swelling grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Oak Wood Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and the SORE GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am far better than I have been for years.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade by the gallon only.

Testimonials:

Gen. James B. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT. "WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 99 cents per gallon in favor of the former.

FUNERAL OF CAPT. WM. DIERDORFF.—The remains of the late Capt. Wm. Dierdorff were buried yesterday afternoon by the fraternity of Odd Fellows, of which he had been for many years an active, faithful and honored member. The funeral services, at the residence of the family, were conducted by the Rev. Dr. Burton, Pastor of Trinity Church, at the conclusion of which the body was taken in charge by officers of the Grand Lodge (of which he was the Junior Past Grand Master), officers and members of Hassalo Lodge (of which he was a member and Past Grand), officers and members of Ellison Encampment, and Sawyer, Minerva and Oregon Lodges, and visiting brothers of the Order. About one hundred and seventy of the brethren marched in the procession in regalia, while a considerable number of others attended merely in citizens' dress. The procession composed of these and a long line of carriages, was a most imposing one, the members thus paying their last respects, attesting the high regard in which the deceased was held while living. The ceremonies at the grave were conducted by the Odd Fellows according to their established forms for burials.

SHIPPING ITEMS.—By a passenger per steamer *Dixie Thompson*, from Astoria, yesterday, we get the following shipping items:

The bark *Melancthon* is lading with lumber at Connerytille.

The bark *Edward Jones* is taking 250,000 feet of lumber from the Astoria mills.

The bark *R. W. Wood* is taking on board at Westport, 250 barrels salmon, for Honolulu.

The *Live Yankee* was ready to go to sea yesterday morning, and as the tug was also ready to tow her, she doubtless went out yesterday.

The bark *Amelia* went to sea Monday morning, with a full cargo for San Francisco.

The bark *Skiddaw*, with railroad iron, from Newport, Wales, was towed in across the bar, Monday afternoon. She is drawing 18 feet of water. Captain Stevenson came up yesterday to obtain a tow, and the vessel will probably get up here to-morrow night

FUNERAL OF CAPT. WM. DIERDORFF.—The remains of the late Capt. Wm. Dierdorff were buried yesterday afternoon by the fraternity of Odd Fellows, of which he had been for many years an active, faithful and honored member. The funeral services, at the residence of the family, were conducted by the Rev. Dr. Burton, Pastor of Trinity Church, at the conclusion of which the body was taken in charge by officers of the Grand Lodge (of which he was the Junior Past Grand Master), officers and members of Hassalo Lodge (of which he was a member and Past Grand), officers and members of Ellison Encampment, and Samaritan, Wauna and Oregon Lodges, and visiting brothers of the Order. About one hundred and seventy of the brethren marched in the procession in regalia, while a considerable number of others joined merely in citizens' dress. The procession composed of those and a long line of carriages, was almost imposing one, the members thus paying their last respects, attesting the high regard in which the deceased was held, while living. The ceremonies at the grave were conducted by the Odd Fellows according to their established forms for burials.

SHIPPING ITEMS.—By a passenger per steamer *Lucy Thompson*, from Astoria, yesterday, we get the following shipping items:

The bark *Melancthon* is loading with lumber at Portville.

The bark *Edward James* is taking 250,000 feet of lumber from the Astoria mills.

The bark *R. W. Wood* is taking on board at Westport, 250 barrels salmon, for Honolulu.

The *Live Yankee* was ready to go to sea yesterday morning, and as the tug was also ready to go her, she doubtless went out yesterday.

The bark *America* went to sea Monday morning, with a full cargo for San Francisco.

The bark *Skiddaw*, with railroad iron, from Newport, Wales, was towed to Astoria the bar, Monday afternoon. She is drawing 19 feet of water. Captain Stevenson came up yesterday to obtain a tow, and the vessel will probably get up to-morrow night. The *Skiddaw* arrived off the bar last Thursday.

AN AFFRAY.—An affray took place yesterday afternoon between James Butler and Isaac Cohoes, two colored men, on Washington street, near Front. The difficulty arose, it is said, in consequence of one of the men spanking disrespectfully a woman, and is in some way connected with the "Ward Graham fend," which has continued to agitate the minds of the colored population. It is alleged that Butler struck Cohoegen, who is an old man, on the head with a slung-shot. The wounded man was conveyed to his residence, where his wounds were dressed. They are not dangerous. Butler was taken in custody, and upon furnishing bail in the sum of $500, was released. He will have an examination before Judge Denny on Tuesday at nine o'clock.

FOUL SMELLS.—The foul smell arising from the water in the cellars along portions of Front and First streets has become intolerable. Especially is this the case with the cellar at the Northeast corner of First and Stark streets. The stench arising from this locality has become terrible and insufferable that parties rooming and doing business in that immediate vicinity are compelled to close their windows to keep it out of the house, whilst pedestrians are compelled to take a *detour* in order to avoid having their senses offended by the stench. This state of affairs may be beneficial to the medical fraternity, as the residents thereabouts may exclaim as the man did to the boys, "it may be fun for you, but it don't to me!"

EXCURSION.—A grand moonlight excursion from Portland to Oregon City is advertised for Friday evening next. This excursion is for the purpose raising funds to aid in rebuilding the Methodist Church, lately destroyed by fire at that place. One of the P. T. Co.'s steamers will leave the company's wharf, in this city, at half past 8, with the excursion party, and will remain for an hour or more, thus furnishing an opportunity to view the Willamette falls by moonlight. The parties having the affair in charge promise that the will be the most delightful excursion of the season. Tickets, for the round trip, $1; children under twelve, half price.

ALL ABOUT A COAT.—In the Police Court yesterday morning a man named Fitzpatrick was arraigned on the complaint of Frank Brown, who charged him with stealing a coat. From the evidence it appeared that Brown came into possession of the coat through the agency of another party, who sold it to him for $2 25. Upon further examination it was discovered that the second party obtained the coat from a man named Hamilton, who it appears is absent from the city, thus giving to the satisfaction of Judge Denny that Brown was innocent of the theft, he was accordingly discharged. Hamilton's presence here is now wanted by the police.

RUNAWAYS.—Runaways have become, of late, so frequent that it is hardly worth while to mention one; the thing is becoming decidedly monotonous. In our walk around town, yesterday, we saw one and heard of no less than three. The runaway which came under our observation consisted in a couple of women, who had taken a few too much, endeavoring to drive a high-spirited horse, who insisted on having his own way, in which he was successful. The women were thrown out but not injured. The buggy is badly smashed.

RELIGIOUS NOTICE.—A meeting of the congregation of the First Baptist Church of this city, will be held this evening at eight o'clock, in the lecture room of the church. The meeting is called for the purpose of taking into consideration the propriety of extending to Rev. Henry Taylor a call to the pastorate of the church. All who feel an interest in the church are requested to be present, the congregation as well as church members.

BATHING.—Notwithstanding the repeated warnings, considerable complaint is being made by people of modest sensibilities that young men still continue to bathe in the river along a portion of the city front. The bathers all innocent of clothing, adds materially to the indecency of the affair.

RACE.—A trotting race is announced to come off over the Riverside track on Tuesday next, mile heats in harness; purse, $75. The following entries have been made: Jos. Welch, Pussy Mittens; B. B. Acker, Brown Dick; —, Arabie.

STREET IMPROVEMENT.—Workmen have been engaged for several days past in making some needed repairs to the Nicolson pavement on Front street, between Morrison and Yamhill.

REAL ESTATE.—The fact that no deeds were filed with the County Clerk yesterday for record, would indicate that the real estate market is decidedly dull at the present time.

PERSONAL.—W. B. Norman, for many years a resident of this city, has been nominated by the Democracy of Calaveras county, California, for the office of County Judge.

WATER WORKS.—The Portland Water Company is building an addition to their engine house, which is located on the river bank a short distance above the city.

WATER WORKS.—The *Constantine* brought up a large quantity of material for the Salem Water Works. A portion of it was shipped to its final destination yesterday.

COLLISION.—A dirt cart collided with a lumber wagon on Third street, near Alder, yesterday afternoon. The dirt cart came out "second best."

DILAPIDATED.—The foot of Morrison street is in a dilapidated condition and requires the immediate attention of our worthy Street Commissioner.

CIRCUS.—The New York Circus, which was organized in this city last fall, opens in San Francisco on the first of August.

DISORDERLY.—A couple of frail but fair sisters were taken in custody last night by the police on the charge of disorderly conduct.

POSTPONED.—The sailing of the steamship *John L. Stephens* has been postponed until this evening at seven o'clock.

TRACK LAYING.—Workmen were engaged yesterday in laying track across the Fourth street railroad bridge.

RESOLUTIONS ON THE DEATH OF CAPT. DIERDORFF.

To the R. W. Grand Lodge of Oregon:

The Committee appointed to draft resolutions expressive of the sense of this body on the death of Brother Dierdorff, respectfully report the following:

Forasmuch as it hath pleased the Grand Master of the universe to summon from the scenes of his earthly labors to the Grand Lodge above our well-beloved Brother William Dierdorff, Past Grand Master of the R. W. Grand Lodge of Oregon, therefore be it

Resolved, First, That by the decease of Brother William Dierdorff this R. W. Grand Body has lost a worthy and efficient member, and his Lodge and our fraternity at large one who, in this life, most fully exemplified the teachings of our cherished Order.

Second, That, whether regarded as an Odd Fellow, a husband, father, or as a citizen, Brother Dierdorff presented an example worthy of emulation.

Third, That we tender to his widow and family our heartfelt condolence in this their severe affliction, and trust that God may give them that peace of mind which passeth understanding.

Fourth, That the members of this R. W. Grand Lodge will wear the usual badge of mourning for the space of thirty days as a mark of respect to the memory of our deceased brother.

Fifth, That the R. W. Grand Secretary be instructed to forward to the family of the deceased, under the seal of the Grand Lodge, a copy of these resolutions, and also furnish the newspapers of the State a copy for publication.

Fraternally submitted.

A. L. STINSON,
C. W. DANNALS,
J. W. WHALLEY,
Committee.

ODD FELLOWS' HALL,
ELLISON ENCAMPMENT, No. 1, I. O. O. F.

Whereas, The relentless hand of death has again visited our Encampment and taken from among us our dearly beloved Patriarch, Wm. Dierdorff, D. D. Grand Patriarch, therefore; be it

Resolved, That we humbly bow to this decree; we deeply deplore the loss of our honored and esteemed brother, and bear witness to his many virtues.

Resolved, That while we feel our loss in its fullest sense, we extend our tenderest sympathies to the family and friends of our deceased brother.

Resolved, That in testimony of our respect and sympathy, the Charter be draped in mourning, and that these resolutions be spread upon the minutes of this Encampment, and a copy be furnished to the family of the deceased Patriarch, and to the daily papers for publication.

Committee.

PORTLAND, July 25, 1871.

ODD FELLOWS' HALL,
HASSALO LODGE, No. 15, I. O. O. F.
July 25, 1871.

Whereas, It has pleased an Almighty Providence to remove from our midst Brother William Dierdorff, P. G. M.; therefore, be it

Resolved, That we deeply deplore this loss of one of our most worthy and tried brethren; as a man he was warm hearted and genial; as a friend, true and faithful, and as an Odd Fellow, wise and temperate in counsel, and earnest and zealous in advocating the noble principles of our order.

Resolved, That while we deeply feel this loss in its full sense, we also feel that our loss is his gain, and to his bereaved family and friends we extend the tenderest sympathy.

Resolved, That the Charter of this Lodge be draped in mourning for thirty days, and that the members of the Lodge wear the usual badge of mourning for the same period.

Resolved, That in testimony of our respect and sympathy, these resolutions be spread on the minutes of the Lodge, and a copy of the same be transmitted to the family of our deceased Brother and to each of the daily papers of this city for publication.

A. J. MARSHALL,
C. W. PARRISH,
O. N. DENNY,
Committee.

POLICE COMMISSIONERS.—The Board of Police Commissioners met last night. Present, Messrs. Hallock and Blanchard. The bill of Chief of Police for board of city prisoners for the month of June, amounting to $266, was allowed and approved. The following is an abstract of police business in the Police Court up to June 26th: Total number of arrests (State and city cases) 152. Fines collected, $446 75. Police Judge's fees, $107 00. Fees of Chief of Police, $84 84. District Attorney's fees, $90.

MACHINERY.—The *Oneonta* brought down last night from the Dalles the machinery formerly in use on board the steamer *Wehfoot*, now used as a freight boat at Wallula. The machinery is intended for the O. S. N. Co.'s new boat, the *Alcinea Hayward*. The engines are very powerful, having a 7-foot stroke, the cylinders being 18,378 inches. With these powerful engines and her beautiful model, the *Hayward* will undoubtedly be the fastest boat on the river.

MASONIC PRINTING.—Bids for printing the proceedings of the last session of the Grand Lodge A. F. and A. M., were opened yesterday afternoon by W. D. Hare, Grand Master, and J. E. Hertford, Grand Secretary. The printing was awarded to Messrs. Himes & Bachelder, of this city.

PERSONAL.—C. C. Huntly, Esq., one of the principal owners of the Northwestern Stage Company, arrived in town yesterday.

COURTS.—None of the Courts were in session yesterday, and, as a consequence, we are without our usual reports.

A NEW CHURCH.—Steps are being taken for the erection of a new Catholic Cathedral.

THE STUDY OF HUMAN NATURE is one of exceeding interest. But there is another theme of which I wish to speak, one more easily understood by the masses in general, and that is the extreme sensitiveness of the pocket. Perhaps the reader can recall instances which have occurred during a business life, illustrative of the above-mentioned fact. Hence, if you would gain a friend replenish his purse; if you would realize the terrors of an enemy, evaporate his purse. Therefore, knowing the delightful sensation which may be produced by the former method of operation, I have chosen it, and I make the application simply by saving persons from twenty to one hundred dollars in the purchase of Pianos and Organs, and furthermore, I guarantee my Instruments to give better satisfaction than any other to be found in this market.

REFERENCE—The great number of Instruments sold during the many years past at my Music Ware-Rooms.

P. S.—Bear in mind that a few minutes spent in my store, and in the purchase of a Piano or Organ will redound materially to the health of your purse.

Yours truly,
W. T. SHANAHAN,

JUST ARRIVED.—B. L. Stone has just received a large supply of Gold and Silver Watches of all the best patterns made. Also, Gold and Silver Chains for Ladies and Gents, and elegant Opera Chains.

Also, a large assortment of the finest Jewelry and Precious Stones, Gold Headed Canes, a large lot of Spectacles, Plate and Silver Ware, and all kinds of Clocks. Mr. Stone is satisfied with quick sales and small profits.

A SLIGHT COLD.—CONSUL.—Few are aware of the importance of checking a "slight cold" in its first stage; that which in the beginning would yield to a mild remedy, if neglected, often attacks the lungs. "Brown's Bronchial Troches" give sure and almost immediate relief. "The Troches" have proved their efficacy by a test of many years, and have received testimonials from eminent men who have used them.

☞ More than one hundred thousand persons annually die in this country from Consumption, which is but the child of Catarrh. $500 reward is offered by the proprietor of Dr. Sage's Catarrh Remedy for a case of Catarrh which he cannot cure. Sold by druggists, or send sixty cents to Dr. R. V. Pierce, 133 Seneca street, Buffalo, N. Y., and get it by mail. Don't get swindled by men calling themselves Dr. Sage; Dr. Pierce is the only man now living that has the right and can prepare the genuine and original Dr. Sage's Catarrh Remedy, and that private U. A Perilous Season.

Glorious and delightful as the Summer weather is, its tropical heats is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or bilious relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general derangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere to which the utility of Hostetter's Stomach Bitters as a tonic, corrective and antibilious medicine, is not known and appreciated. Throughout the Tropics it is considered both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the Bitters made of acrid and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their names in juggle, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass, and never in keg or barrels.

Unspoken Words.

BY J. BOYLE O'REILLY.

The kindly words that rise within the heart,
And thrill it with their sympathetic tone,
But die ere spoken, fail to play their part,
And claim a merit that is not their own.
The kindly word, unspoken, is a sin—
A sin that grows itself to surest guise,
And veils the heart that, doubting, looks within,
That not in speech, but thought, the virtue lies.

But 'tis not so! Another heart may thirst
For that kind word—as Hagar, in the wild—
Poor banished Hagar prayed as well might burst
From out the sand, to save the parching child.
And loving eyes, that cannot see the mind,
Will watch the earliest movement of the lip;
Ah! can ye let its entering silence wind
Around the heart, and scathe it, like a whip?

Unspoken words, like treasures in the mine,
Are valueless until we give their birth;
Like unfound gold their hidden beauties shine,
Which God has placed to be found and told the earth.
How sad 'twould be to see a master's hand
Strike glorious notes upon a voiceless lute;
But, oh, what pain, when at God's own command
A heart-string thrills with kindness, but is mute.

Then hide it not, the music of the soul—
Dear sympathy, expressed with kindly voice;
But let it like a shining river roll,
To deserts dry—to hearts that would rejoice.
Oh, let the symphony of kindly words
Sound for the poor, the friendless and the weak,
And He will bless you! He who struck these chords
Will strike another when, in turn you seek.

Oregon to Scotland.

The following letter was contributed by Mr. O. S. Phelps of this city to the *People's Journal*, published at Aberdeen, Scotland. It has been the means already of attracting fifty or sixty persons from that country to Oregon:

TO THE EDITOR OF THE PEOPLE'S JOURNAL—*Sir*: Mr. William Honeyman, formerly of your famous city, but now a denizen of this Oregonian out post of American civilization, invited me last evening, after having read an article of mine in the Isle of Man *Times*, to write one for the *People's Journal* which I now herein do:—

This new State of Oregon, one of the thirty-eight of the United States of North America, as you are aware, lies between the 42d and 46th parallels of north latitude, and between the 117 meridian west from Greenwich and the Pacific Ocean. It has an average length from east to west of about 350 miles, and a breadth from north to south of 275—containing 95,250 square miles, or 61,800,000 acres of land, with a sparse population of scarcely 100,000 souls. The Cascade range of mountains crossing the State from north to south divides it into two main divisions—the eastern and the western. The coast range of mountains in Western Oregon, for the most part, are heavily timbered. Eastern Oregon, with its fertile valleys, is scarcely settled at all as yet except by numerous stock-raisers, whose big bands of cattle, horses, and sheep roam unmolested at large over its broad plains, and feed upon its rich grasses. It has an area large enough to contain, feed, clothe, and support all of you Scotchmen, Englishmen, Welshmen, and Irishmen put together! Western Oregon contains three large and fertile valleys—viz., the Wallamet, 120 miles long by 40 miles wide; the Rogue River and Umpqua valleys, not quite so large, all having a rich soil of dark, sandy loam, very productive, and easy to cultivate. Oregon is the best country in the whole world for a poor man or a new beginner to start in.

Oregon is alive with birds and beasts; her rivers are filled with the best of salmon, her streams with the finest of speckled trout; her fruits most delicious; her flowers most fragrant; her flocks and herds most numerous; her Mounts Hood and St. Helens most grand; her scenery, seasons, and soils most superb; her rivers and inlets, her mountains and hills, her prairies and plains, aye, and a hundred things besides, are all most marvellous and delightsome. Here are land for the landless, homes for the homeless, work for the workless, wealth for the wealthless, elbow room, sitting room, standing room, and working room for one and for all who wish to avail themselves of them!

Why so many of you Europeans stay at home and worry and work, toil and toil, and have no "land inheritance" that you can call your own—no, not so much has to set your foot on!—when Brother Jonathan offers each of you here 160 acres of better land than any in good old Scotland, is more than I can divine. But some of your "canny men" I know here, and hereabouts, have already availed themselves of "Uncle Sam's" and Canada's liberality years ago, and have since become rich thereby—as Lockhart Ross Carswell, banker of Chicago (of Glasgow formerly); David Gray, James Norris, James and Robert Lawries, of St. Catherine's, Ontario, Canada; David Mathews, John M'Millan here, etc., etc.—a hundred of whom I could name if space did permit. I am one of those old fashioned Presbyterians myself, just past fifty-five years old, of English descent, born in Central New York, at Lyndonville. My late father, Oliver Phelps, Esq., moved to the then Upper Canada in 1820, to build the Welland Canal around Niagara Falls—was its chief constructionist, and associated with the late Wm. Hamilton Merritt, its father, which he completed in 1829, and of whom the Hon. Mr. Merritt afterwards said, "That to no man in that part of Canada was she more indebted for her present prosperity and success than to late Oliver Phelps, Esq." I remained in St. Catherine's, Canada, for the most part since 1826, till February 16, 1860, when I handed in my letter of resignation as Town Councillor of still town, and removed away off here at "sundown," where the sun, ere it sinks into the bosom of the Pacific Ocean, takes the last lingering look of those United States, as in July next she will then of united Canada, for British Columbia, I see, is then to be united in "marriage" to the Dominion of Canada, which will then extend, like these United States, from ocean to ocean. Then, when British gold and British hands build a railroad and telegraph line through British territory all the long way (three thousand miles) from Halifax on the Atlantic coast to Victoria on the Pacific coast, will united Canada become a power and a star in Her Majesty's crown that will eclipse all her other sixty-six dependencies, and make some of you Anglo-Saxons stare. I am, &c.,

O. S. PHELPS.

Portland, Oregon, 16th Feb., 1871.

Political Character of California.

[From the Sacramento Union, July 19.]

There is no more doubt that California is a Republican State than that Sacramento is a Republican county. Our defeats are the exceptions. The rule is victory. It is not necessary to show up the causes that defeated the Republicans in 1867. We need only say they do not exist this year. The party has for its gubernatorial candidate a man in whom all confidence may be reposed, and who will call out the fullest vote of the party. He ought to defeat his opponent by at least 10,000 majority, and we shall be disappointed if he does not have even more than that. The Presidential election of 1868, following so closely after the Republican defeat by over 9,000 votes, was something to be proud of, but it is no index to the political character of California. That year we had Democratic prestige to overcome, while national issues were in a measure suspended and unattractive, and it was not possible to arouse enthusiasm upon them. In 1864 the county of El Dorado gave Lincoln over 800 majority in a vote but little in excess of 1,500. In 1867 it gave nearly 300 majority for the Democracy, and in 1868 it gave the Democratic candidate for President a majority of seven votes. This year we learn that El Dorado will give Booth a majority, and we confidently expect it to be at least 200, notwithstanding the fact that Haight has some excellent and popular working friends in that county. The intelligent people begin to comprehend the fact that the country cannot afford to let the Democracy triumph, with the threat in the mouths of their leaders that if they obtain the power they will at once compel the Government to pay them for the lost slaves of the South. An additional debt of two thousand million dollars would bankrupt the United States and pave a smooth way to the ultimate dissruption of the Union. The cause of Union has again become a live issue in the election, and will and ought to attract as much attention now as it did in 1864, when Calaveras gave over 400, El Dorado over 800, and Amador over 600 majority for Lincoln; and when the State gave Lincoln 62,134 to McClellan's 43,841 votes. All the attendant local influences and political incidents indicate an overwhelming victory for the Republican ticket.

The Irish vote is by no means a unit for the Democracy. The Germans will vote nine out of ten for Booth, and we shall have a solid gain of nearly 2,000 votes from the colored people. The chivalry wing of the Democratic party will vote for Haight, but they will not work for him with any enthusiasm. In fact there is no enthusiasm in that party this year, and the Republicans have only to work with zeal to insure a victory by over 10,000 majority, and make it certain that the electoral votes of California and all the Pacific States will be cast next year for the Republican Presidential nominee.

PICKINGS.

It is said that the wind blows with such force in Colorado that when a man loses his hat he has to telegraph to the next station for some one to stop it.

An exchange wanting to compliment a "Live Stock Journal" says it is edited by a man whose head is chuck full of live stock. Doubtful compliment.

An Omaha paper advises the people "not to make such a fuss about the shooting of one constable, as there are over forty candidates for the position."

Small but active boot-black to a wearer of thirteens:—"Say, Boss, let me black your boots, do it for five cents an acre, and warrant it done before sundown."

Large deposits of meerschaum are reported to have been found in Patagonia. The principal sources of supply at present are Greece, Turkey, Asia Minor, and Spain. The mineral is hydrous, silicate of magnesia, very porous, light and soft.

The foolish allopathic physicians of Washington have made another bid for notoriety by putting the ban upon one of their number because he dared to consult in the case of Vice President Colfax, with a homeopathist. They have also adopted resolutions warning all allopaths that the act of consulting with any colored physician will subject them to expulsion from the ranks of the "regulars." The fool killer will find plenty of work on his next visit to Washington.

Alexander H. Stephens stands his ground and speaks out like one who feels sure of his backing. Having a paper of his own now he is independent in the matter of giving his views publicity. The Ohio Democratic platform is the subject of his latest dissertation, of which the following is a specimen:

"We say in advance that we shall never recognize as a political friend or ally, let him hail from any quarter he may, any one who maintains that the openly confessed usurpations attending the Reconstruction acts have all been settled in the manner and by the authority constitutionally appointed, and who shall deprecate any arraignment of either of these acts of their authors before the bar of public reason for popular condemnation. All such are no friends of ours."

A gentleman in Canada gives a history of a battle between two swarms of bees a few days ago. One swarm, he says, took forcible possession of their neighbors' barracks, and as the attacked, defended their rights, a furious fight commenced, and the battle raged from 4:30 to 9 P. M. Next morning, as the sun appeared, the battle was resumed, the marauders appearing not in good condition, yet showing great pluck. The carnage continued without intermission till 10 A. M., when hundreds of dead bodies lay on the plain. At 11 the battle ended, when there was not one of the attacking party left to tell the tale.

An attendant at Mount Vernon, not long since, found a lady weeping most bitterly and audibly, with her handkerchief at her eyes. He stopped up to her and said:

"Are you in any trouble, madam?"

"No, sir," she sobbed.

"I saw you weeping."

"Ah!" said she, "how can any one help weeping at the grave of the Father of his Country?"

"Oh, indeed, madam," said he, "that's it! The tomb is over yonder; this is the ice house!"
